The States-Parties to this Agreement, hereinafter referred to as the Parties,

Reaffirming their dedication to the purposes and principles provided by the United Nations Charter,

Cognizant of the fact that, politico-military co-operation has become a key element in strengthening the European capabilities in the fields of security and defense,

Believing that co-operation and dialogue among the countries of the region of South-Eastern Europe must be further developed,

Considering their commitment to contribute to regional security and stability, and to foster good neighborly relations among the countries in South-Eastern Europe in the context of the Southeastern Europe Defence Ministerial (SEDM) process, the Euro-Atlantic Partnership Council (EAPC) and in the spirit of Partnership for Peace (PfP), have agreed as follows:

ARTICLE-I

DEFINITIONS

1. In this Agreement the expression:

a. **"Coalition of the Willing"** means group of states, based on individual decisions and preferences, making up a coalition for the purposes of either actually participating in and/or providing political, logistic and other types of support to particular operations,

b. **"Conflict Prevention"** means activities, normally conducted under Chapter VI of the UN Charter. They range from diplomatic initiatives to preventive deployments of forces intended to prevent disputes from escalating to armed conflicts or from spreading. Conflict prevention can also include fact finding missions, consultations, warnings, inspections and monitoring.

c. **"Contingency Establishment (CE)"** means the table setting out the authorised re-distribution of manpower and augmentation of personnel for the Force HQ under operational conditions.

d. **"Contingency Operations Plans (COPs)"** means plans which are developed for possible operations where planning factors (e.g. scope, forces, destination, risks, area of operations etc.) have been identified or can be assumed. These plans are produced in as much detail as possible, including the forces needed and deployment options, as a basis for the actual subsequent operational planning.

e. **"Deployment"** means the relocation of forces to desired areas of operations.

f. **"Employment"** means use of forces in the theater of operations.

g. **"Humanitarian Operations"** means operations conducted to alleviate human suffering. Humanitarian operations may precede or accompany humanitarian activities provided by specialised civilian organisations.

j. **"Peace-building"** means actions which cover political, economic, social and military measures and structures aiming to strengthen and solidify political settlements in order to redress the causes of a conflict. This includes mechanisms to identify and support structures which tend to consolidate peace, advance a sense of confidence and well-being and support economic and civil reconstruction.

k. **"Peace Enforcement"** means operations undertaken under Chapter VII of the UN Charter. They are coercive in nature and are conducted when the consent of all Parties to a conflict has not been achieved or might be uncertain. They are designed to maintain or re-establish peace or enforce the terms specified in the mandate.

l. **"Peacekeeping"** means operations generally undertaken under Chapter VI of the UN Charter and conducted with the consent of all the Parties to a conflict to monitor and facilitate implementation of a peace agreement.

m. **"Peacemaking"** means the diplomatic activities conducted after the commencement of a conflict, aimed at establishing a cease-fire or a rapid peaceful settlement. They can include the provision of good offices, mediation, conciliation and such actions as diplomatic pressure, isolation or sanctions.

n. **"Peace Support Operations"** means multi-national operations conducted impartially in support of a UN/OSCE mandate involving military forces and diplomatic and humanitarian agencies, designed to achieve a long term political settlement or other conditions specified in the mandate. s. **"Voluntary National Contribution (VNC)"** means subject to PMSC approval, voluntary manning by the Parties, of the Brigade HQ or other multinational formations, outside the scope of the approved PE, for a limited period of time and for meeting specific requirements of expertise.

ARTICLE-II

PRINCIPLES

1. The parties ensure that the activities of the Multinational Peace Force South-Eastern Europe (MPFSEE/the Force) or South-Eastern Europe Brigade (SEEBRIG/the Brigade) hereby established are consistent with the purposes and the principles of the United Nations Charter.

2. This initiative:

a. is neither directed against any third state nor intended to form a military alliance of any form against any country or a group of countries.

b. is transparent and open to the North Atlantic Treaty Organization (NATO) and Partnership for Peace (PfP) nations in the region, "able and willing" to contribute constructively, at any later stage.

c. will be in line with and supportive of PfP programmes which aim at the improvement of the regional cooperation within PfP and shall allow essential cooperation within the framework of the United Nations (UN), NATO, the Organization for Security and Cooperation in Europe (OSCE) and the Western European Union (WEU).

3. This Agreement will not affect in any way the rights and obligations of the Parties stemming from the treaties and agreements that they had previously signed.

4. All decisions concerning MPFSEE will be taken by consensus among the Parties.
ARTICLE- III

ESTABLISHMENT, DEPLOYMENT AND EMPLOYMENT OF THE MULTINATIONAL PEACE FORCE SOUTH-EASTERN EUROPE

1. The Parties hereby establish the Multinational Peace Force South-Eastern Europe (MPFSEE) at brigade level. The location of the Force HQ/Nucleus Staff will be decided by consensus among the Parties.

2. The Brigade will be declared to UN and to OSCE. It will be available, commensurate with its capabilities, for employment in conflict prevention and in other peace support operations, including peace-keeping, peace-making, peace-building and humanitarian operations.

3. The Force will be available for possible employment in UN or OSCE-mandated NATO-led or WEU-led conflict prevention and other peace support operations. It could also participate in "coalition of the willing" type international initiatives. The Force will also function "within the spirit" of PfP.

4. The decision for participation in operations and deployments, which is initially to be proposed by the Politico-Military Steering Committee (PMSC), will be subject to political and military consultation as detailed in Article IV and will be approved by the Parties through their respective national legal procedures.

5. After the joint case-by-case political decision is made for participation in operations and for the deployment of the Force, by the Parties, they must make their contributions available for the Force within the time frame proposed by the relevant authorities and decided by the PMSC. Participation in a particular force "package" for a specific operation is a purely national preference.

6. Tasks to be undertaken by the Brigade and the Rules of Engagement (ROE) shall be derived from the resolutions of the international organization which has undertaken a given operation and shall be subject to approval of the Parties, based on the proposals by the PMSC.

7. In NATO-led or WEU-led peace support operations, the Brigade will be subordinate to the bodies delineated in the mandate of the relevant international organization after the Parties have agreed to undertake such operation. The military body under which the Brigade will function will be jointly decided by the Parties.

8. The Brigade shall be withdrawn from operations by virtue of a joint decision made by the Parties committing forces to this operation.

9. Each Party reserves the prerogative to withdraw its forces and/or personnel from a given operation, provided that all the other Parties are informed and invited to consultations no later than 30 days before such a decision is implemented.

ARTICLE-IV

POLITICAL AND MILITARY CONSULTATION AND DECISION MAKING

1. Political and military consultation and decision making will be carried out through meetings of Ministers of Foreign Affairs, Ministers of Defence, Chiefs of Defence Staffs and the Politico-Military Steering Committee.

2. Foreign Affairs Ministerial meetings are intended to focus on political subjects and political aspects of military operations such as, new membership, participation in the Force, involvement in peace initiatives and/or peace support operations, contingencies, relations with international organizations, revision and amendment of this Agreement and related documents and overall political guidance.

3. Defence Ministerial meetings are to review military subjects and to make decisions/recommendations, as appropriate; in particular, participation in operations, overall guidelines for the employment of the Force, ROEs, approval of COPs and Operational Plans.

4. The meetings of Chiefs of Defence Staffs are advisory for high-level military consultation which provide for the discussion of any issues of military technical nature and for making recommendations, as necessary, with respect to such subjects.

5. MPFSEE Ministerial meetings and the meetings of MPFSEE Chiefs of Defence Staffs should take place at least once a year, or in response to an invitation by one of the Parties. The necessity, frequency, actual time and location of these meetings are subject to consultation among the Parties.

6. A Politico-Military Steering Committee (PMSC) will be established as the joint executive body for oversight and providing policy guidance for deployment, employment and other activities of the MPFSEE.

7. For the PMSC, each Party will nominate a delegation, headed by a senior representative, who may be advised by area experts.

8. From the date on which this Agreement enters into force, the chairmanship of the PMSC will rotate annually among the Parties. The rotation will be in alphabetical order, unless otherwise decided by the Parties.

9. The PMSC will determine its own organization -as and if deemed necessary- and internal rules while abiding by the following general principles:

a. It will meet regularly and at such intervals as necessary to carry out its responsibilities and as soon as possible in response to a specific request by any Party or an invitation by the Chairman.

ANNEX-B FORCE GENERATION
OF
AGREEMENT ON THE MULTINATIONAL PEACE FORCE SOUTHEASTERN EUROPE

1. Force Generation process starts upon Ministerial decision of the Multinational Peace Force Southeastern Europe (MPFSEE) Parties to participate in a common mission. Accordingly, the Politico-Military Steering Committee (PMSC) requests COMMPFSEE to initiate the force generation process (APPENDIX: Force Generation Process).

2. Under the responsibility of COMMPFSEE, the Nucleus Staff/MPFSEE HQ develops a specific Concept of Operations (CONOPS) to define force requirement. If available, appropriate Contingency Operation Plans (COPs) may be used for this purpose.

3. Initially, the MPFSEE HQ defines force requirement in broad terms and communicates it to the Parties for them to identify their force contributions. Based on the intentions of the Parties, a Statement of Requirement (SOR), which details force size, type, composition etc., is disseminated to the contributing Parties. After several iterations (if required) of the above mentioned process, a satisfying match between SORs and national force committments is achieved. Next, force locations, arrival time and priorities (Disposition List) are defined in coordination with the contributing Parties.

4. Once Disposition List (DL) is finalised, the MPFSEE HQ completes the deployment planning process, which the contributing[1] Parties are parts of.

5. As directed by the PMSC, COMMPFSEE issues Activation Warning (ACTWARN) and Activation Order (ACTORD) to the contributing Parties to start Transfer of Authority (TOA) process. In accordance with those directions, national contingents acquire required operational status and deploy into the theatre. Transfer of Authority (TOA) of national forces takes place as specified in appropriate documents. From that moment, national contingents are subordinated to the COMPFSEE authority as agreed within the PMSC.

6. Detailed procedures for Force Generation will be elaborated by the Nucleus Staff, under the responsibility of COMMPFSEE, for the approval of PMSC.

[1] A contributing Nation is a Party who contributes to the specific operation with any kind of national resources (personnel, forces, equipment, material, etc.)

2. Financial Procedures for Multinational Financing will be developed by the Permanent HQ (PHQ) MPFSEE for all financial aspects. This document will be approved by the Politico-Military Steering Committee (PMSC) and issued separately.

ARTICLE 2 - PRINCIPLES

a. **Fiscal year**: The Fiscal Year (FY) begins on 1 January and ends on 31 December.

b. **Currency.** The currency used for the budget plans, accounts and Parties' semestrial shares payments will be the US dollar. All statements and reports submitted to the PMSC will be prepared in US dollars. All payments to the local market will be made in the Host Nation (HN) currency. The exchange rate of the USD to the Host Nation currency is determined by the HN Central Bank (or a governmentally designated bank) periodically (periodicity TBD).

(a) Operations and Maintenance (O&M) costs: O&M costs are necessary expenses to run the full PHQ MPFSEE, and costs other than investment costs, as defined in sub-Para (f), but including O&M expenses arising from deployment of the HQ MPFSEE outside of its permanent location.

(b) Mission related costs such as: liaison, planning, training, exercises and deployment (operations) of the MPFSEE HQ;

(e) The costs incurred from claims (contractual and non-contractual) against the HQ MPFSEE.

(f) Investment Costs:

Investment costs are those costs related to acquisitions. The investment costs which follow the start-up costs for the PHQ and the O&M costs will be financed through the common budget. Investment costs include:

- Field equipment,
- Communications equipment,
- Data processing equipment,
- Vehicle acquisition (if necessary),
- Office equipment
- All expenditures as defined as such by the PMSC.

(g) Exercise costs: Exercise costs born by the HQ MPFSEE, when deployed and as directed by COMMPFSEE, will be funded from Common Budget according to the MPFSEE Exercise Funding Arrangements document (to be developed).
(2) **Host Nation Support:** The Host Nation will finance the start-up costs and provide the facilities as specified in Annex D.

(3) **National Funding:** Each Party will be responsible for its direct national costs incurred for the direct support of its own forces:

(a) Costs incurred during training and exercises, in preparation for participation in and during peace support operations to include equipping them up-to agreed standards.

(b) Personnel salaries,

(c) Allowances including living, accommodation and per diems, payable under national regulations,

(d) Transportation costs for posting to and from the HQ for personnel (including those of Voluntary National Contributions-VNCs) assigned to HQ MPFSEE, and any national support element or other national representation additional to that set out in the Force structure,

(e) Any equipment or any personnel brought into HQ MPFSEE in excess of that provided by the Host Nation,

(f) Communications expenses arising from national requirements,

(g) Additional costs for any special facility or equipment required to meet national needs and of any operating costs where these can be separately identified by the Host Nation,

(h) Claims resulting from claims (contractual and non-contractual) against the deployed national units in MPFSEE,

(i) Any other miscellaneous expenses decided/agreed by all Parties.

d. **Cost sharing:**

(1) Cost share is each Party's contribution to the common budget which will be calculated on the number of PHQ MPFSEE Peace Establishment (PE) slots allocated to each Party. Vacant, rotational, and temporary augmentation slots will not affect cost share. In principle, the cost shares will be effective for the entire fiscal year. Therefore, any changes in the PE slot allocation during the FY will be effective on the cost shares of the Parties for the following FY.

(2) Cost share percentages, calculated in accordance with subpara d. (3), will be approved by the PMSC and published as a separate document. This process will be repeated whenever the PE changes.

(3) The Following Cost Sharing Key will be used to calculate the Parties' contributions.

N*/S x 100**

* **N** stands for the number of PE slots allocated to the respective Party,

** **S** stands for the total number of PE personnel.

e. If a new Party joins the MPFSEE, it will make its contribution to the common budget as defined above and to the existing investment assets as determined by the PMSC.

f. Common property:

Equipment purchased through common funds is the common property of the Parties. The status of the common property and the national equipment provided by the Host Nation for temporary use, will be recorded in separate inventory lists and such acquisitions will be included, as a full list, in annual reports. The common property items, paid with common funds will be reported in an inventory book (Assets Registry) and the financial comptroller will be responsible to keep this inventory updated. The Nucleus Staff will prepare detailed SOPs for acquiring common property, subject to approval of the PMSC.

g. Expenditure limits of the Financial Comptroller and COMMPFSEE will be determined in the Financial Procedures for Multinational Financing.

h. Write-off authority:

(1) The Property Accountability Officer is a dual-hatted officer from G-8 office and is responsible for initiating a report of survey whenever a prima facie case for write-off has been established. COMMPFSEE will develop detailed procedures for write-off subject to approval by PMSC.

(2) Reports of survey shall contain all necessary details of the item(s) concerned, and outline the circumstances leading to the request for write-off.

(3) Common property approved for write-off shall be disposed of in accordance with instructions of the approving authority.

(4) Common property will be written off and disposed of whenever it has become unserviceable, discovered missing or damaged, or as directed by the Senior National Representatives (SNR) Board at PHQ MPFSEE.

3. Contributions will be transferred to a bank which is designated by the Host Nation and approved by the PMSC.

4. The PMSC will be informed by the COMMPFSEE when a non-payment occurs. The PMSC will decide the proper actions to be taken relating to the continued participation of the Party which is in arrears and the financial consequences to the PHQ.

5. If a need arises for supplementary funding of additional costs outside the normal funding cycle, requests and detailed justification will be submitted by the COMMPFSEE to the PMSC for approval. The residual value will be determined on the basis of the military or economic use and technical life of equipment and supplies.
